

Alex Kimata

Of Counsel

1800 Broadway, Suite 300, Boulder, CO 80302

P 303.441.5906

ahkimata@hollandhart.com

Alex delivers strategic counsel to help companies develop and implement compliant data and privacy security frameworks that mitigate risk and allow a business to thrive.

PRACTICES

Intellectual Property
Data Privacy and Information Security
IP and Technology Transactions

EDUCATION

University of Colorado Law School, J.D.,
2018

Colorado Technology Law Journal,
Article Editor

University of Colorado at Boulder, B.A.,
2011

Economics and Political Science

BAR ADMISSIONS

Colorado

Alex advises clients ranging from startups to Fortune 500 companies on privacy and data security matters, from starting a new privacy program to implementing sophisticated global data transfer mechanisms, to evaluating artificial intelligence frameworks. He focuses on domestic and international privacy and data security law compliance, critical infrastructure protection, service provider and vendor due diligence, and oversight.

With a business mindset, Alex helps companies assess their risk tolerance based on priorities such as stage of growth, operational needs, and industry sector. He develops tailored data usage, privacy and data security policies and protocols that balance risk and business growth and counsels on day-to-day implementation, management, and concerns.

He negotiates a variety of technology agreements, including SaaS, software and other licensing agreements, so companies can commercialize their intellectual property assets. Clients appreciate that Alex takes time to explain the importance of specific provisions and the interplay with the organization's holistic data security and privacy framework.

Alex holds CIPP/US and CIP/T certifications from the International Association of Privacy Professionals.

Before joining Holland & Hart, Alex practiced at a Denver law firm.

EXPERIENCE

Data Privacy and Security

- Holistic data privacy and information security legal and regulatory compliance.
- Strategic counseling on data processing practices.
- Development of disclosures, policies, data retention, and data management practices.
- Vendor, service provider, and third/nth party security risk management program and policy development, oversight, management, and audit.
- Data Breach response, including counseling on legal requirements

and strategic next steps.

- Providing subject matter expertise on cybersecurity and privacy issues to buyers and sellers

Technology Transactions and Licensing

- Technology assets, solutions, equipment, and services development, marketing, licensing, deployment and distribution, including SaaS and cloud services.
- Content and data licensing, protection, and distribution.
- Intellectual property, idea, and trade secret protection, development, licensing and transfer transactions and strategic advice.
